

Annual Database Lease Program

Harness the marketing power of the DENTAL-DEK database for your own direct mail, email and telemarketing efforts.

Machalek Communications, Inc has been marketing to the dental market for over twenty years sending over 250 million postcards and creating effective email campaigns for the past eight years. Our list is updated daily and proven deliverable and responsive!

We have developed unique expertise in compiling and managing our dental database. This is not a list that has been harvested from web pages. BEWARE of purchasing inexpensive email lists from data aggregators. These lists often contain numerous spam trap emails that will put your email reputation with ISPs at risk.

Data sources include Opt-Ins; DENTAL-DEK mail responses, customer data from key strategic partners; and new clinics registered with secretaries of state.

We guarantee less than 5% of these emails will result in a hard bounce within 30 days of receipt of file.

Lease Our Entire Dental Database Annually

for only \$9,900 net

That's like paying about 20 cents for the email address and getting the mailing address and phone number for free!

Includes more than:

100,000 Mailing Addresses

80,000 Phone Numbers*

60,000 Email Addresses

30,000 - 50,000	\$.10	\$.13

Minimum charge \$300. Additional addresses at \$.10 each

Since these buyers have not opted into your specific email list you may find that your email service provider is unable or unwilling to send to them on your behalf. We can refer you to an excellent firm that we use as our email marketing partner.

This program is for unlimited use for one year. However, you must agree to comply with all CAN-SPAM requirements and to not send more than one email campaign per week as we do not want to fatigue these buyers with too many emails and risk creating opt-outs or complaints. You may not redistribute or share this list with any other parties.

List is seeded to detect unauthorized usage.

*The mailing addresses and emails are updated regularly, the phones are not.

Free quarterly updates upon request.
